CRAIGHEAD COUNTY REGIONAL SOLID WASTE MANAGEMENT DISTRICT  
Administrative Grant

**3.0 Project Description**

3.1 Angela Sparks may be contacted regarding this project at the District Office.

3.2 Administrative Grant Funds are requested to provide funding for administration costs involved with coordination of and reporting on the solid waste and recycling activities, as well as the licensing of solid waste haulers. The District is in cooperation with Tenenbaum Recycling Group and Marck Industries to staff and operate MRFs in Craighead County to sort and process recyclables. The public/private cooperative has resulted in better utilization of grant monies, more efficient operation of MRF, increased quantities of commodities for optimum processing and marketing. This is the cornerstone of TRG and Marck being regional processors and serving other Districts. The Recycling Education Coordinator and the 2010 recycling promotion “Kurby the Blue Bag” or a similar campaign will continue through 2011. The goals of the promotion are: 1) provide incentives for citizens to develop recycling habit; 2) increase the level of commitment by the cities to support recycling; 3) build working partnerships with private industries to share in the costs and activities of recycling; and 4) to increase the household recycling tonnage by 20%.

The desired short-term outcome is for a higher rate of participation in recycling for District residents, with an immediate increase of tonnage. Long-term benefit will be a sustained recycling habit, with creative and new methods of reducing the waste stream and extending the life of the landfill.

The greatest potential for growth is in the commercial and industrial recycling areas. Tenenbaum already serves this market in scrap metal and Marck in cardboard on a regional basis. The opportunities to expand into other commodities in commercial quantities are best suited to private enterprise because of unlimited boundaries, and ability to react to market pressures.

3.3 No. 1 and No. 2 plastics, tin cans, aluminum cans and clear glass will be recycled.

3.4 The project will encompass the entire District (Craighead County) with an estimated population (for 2009) of 95,457 (per U.S. Census Bureau website). The promotions are targeted toward residents in single-family dwellings in incorporated areas; however, the Recycling Education Coordinator also focuses on educators, citizen's groups, and industrial facilities in the District.

3.5 Days and hours of operation are: 8 AM - 4 PM, Monday through Friday.

The objective evaluation of this project will be based on tonnage increases, and expanding numbers of commodities being processed. The successes in these areas will be important to maximizing landfill space.
