3.0 Project Description

- 3.1 This project will consist of the continued and expanded operation of the Southwest Central RSWMD Regional Recycling Center Facility. The intent of the project is to provide a location whereby all of the member entities of Clark County, Garland County and Hot Spring County may bring recyclable materials in order to benefit from more advantageous marketing capabilities. The overall goal of the project is to encourage collection of recyclables throughout the SWCRSWMD by providing a more efficient marketing source. The desired outcome of the project is to continue to promote "RECYCLING" throughout the SWCRSWMD by providing an incentive for each of the member Counties to continue to collect recyclable materials. The SWCRSWMD will continue to increase public awareness about "RECYCLING" by utilizing the educational "BAGMAN/RECYCLING" videotape distributed "free of charge" throughout the SWCRSWMD. The videotape is used in conjunction with "hands on" recycling education in targeted schools within the SWCRSWMD. Also, the SWCRSWMD will distribute "brochures" to increase public awareness about the Household Hazardous Waste Collection Program that will now include the collection of electronic waste.
- 3.2 The targeted recyclable materials include newsprint, cardboard, office paper, glass, aluminum and electronic waste.
- 3.3 The SWCRSWMD Regional Recycling Center is located at 218 Runyon Street in Hot Springs. The current population served by operation of the Center includes all of the three member counties of the SWCRSWMD and includes approximately 141,967 persons.
