DMR-QA Study 42

(This data is collected under the authority of Section 308 of the Clean Water Act.)

2022

Instructions for the NPDES Permittee Data Report Form:

1. This is a two-page form.
2. **Enter** your NPDES permit number at the top of pages 13 and 14.
3. You must fill in the 2-digit **permit extension** field at the top of page 13 if there is an extension for your permit code. If you have one, the extension will appear next to your permit code in the address box on page 13; for example: "NPDES Permittee CT1234567-01". If there is no extension, leave this field blank.
4. **Identify** each of your laboratories on page 14, including their U.S. EPA Lab Code which is a unique identifier number assigned by EPA. (Refer to page 6, item 4 in the Study 42 package) (NOTE: The U.S. EPA Lab Code of the laboratory that produced the data must also appear at the top of the Chemistry/ Microbiology and WET analyte checklists on pages 15-16.)
5. **Make copies** of pages 13 and 14. Attach a copy of these pages to the Chemistry/Microbiology and WET analyte checklists. Separate copies of each checklist must be filled out for each laboratory you used. Also, if a laboratory reports more than one test method to you for any single analyte, you must use a separate checklist for each test method reported. These checklists must indicate the graded test results for the analytes tested by the laboratory that are in your permit and required for DMR-QA (Acceptable or Not Acceptable). For Study 42, it is optional but encouraged to write in the approved EPA test method used for DMR- QA Chemistry/Microbiology analytes. If you use a state-certified laboratory to generate your NPDES data in a state that has been granted a partial exemption from the DMR-QA study by the EPA Region, check the "Analyte determined by state-certified laboratory" box(es) on the checklists (pages 15 and 16) for all analytes in your permit analyzed by a state-certified laboratory.
6. **Sign and date** the certification statement on page 13 and the applicable checklists on pages 15 and 16. Forms that do not have a signed certification statement by the permit holder or authorized representative will be considered invalid.
7. **Make copies** of the NPDES Permittee Data Report form and checklists for your records.
8. **Submit** the signed copy of the Permittee Data Packages by e-mail or postal mail to the **State DMR-QA Coordinator no later than September 9, 2022.**

Paperwork Reduction Act Notice. The public reporting and recordkeeping burden for this collection of information is estimated to average 6.6 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the *Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, DC 20460*. Include the OMB control number (2080-0021), ICR number (0234.13), and EPA form number (6400-01) in any correspondence. Do not send the completed form to this address.

Optional: If WP Study was used, list PT Provider name(s):

Optional: IF WP Study was used, list WP Study Number(s):

For DMR-QA Study 42, conducted in 2022, the Permittee ensured that their laboratory(ies) performing the required analyses:

Received PT Samples

YES NO

Submitted Complete and
Accurate Data by July 15, 2022

YES NO

Received a Graded Report by
August 12, 2022

YES NO

Certification by Permit Holder or Authorized Representative

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. Each reported value was produced from a single analytical run using the analytical system that routinely performs these analyses to produce compliance monitoring data required under our National Pollutant Discharge Elimination System (NPDES) permit. Neither I nor any of my subordinates compared our results with results from independent analyses conducted by us or any other laboratory before we reported our results to the U.S. EPA. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Data entry confirmation for DMRQA 42

Laboratory name: El Dorado Chemical Co

Reporting Terms Agreement: By creating this dataset for DMRQA 42, we affirm that we have abided by the following conditions of this study.

1. We have not sent samples to any other laboratory for analysis.
2. We have not knowingly received test samples or information from another laboratory for analysis.
3. We have not shared any information for analysis of the test samples with another laboratory.
4. We have not and will not attempt to obtain or reveal any information about our results, the target values, or acceptance ranges of the test samples from the organizer or any other laboratory until the organizer has announced the test study has concluded.
5. We have treated these samples in the same manner as the majority of routinely tested samples in regard to analysts, methods and quality control procedures, where appropriate.
6. After the study closes no changes to data can be made.
