**To:** Richard Healey (adpce.ad); Water-Enforcement-Report  
**Cc:** Keith Long; Howard Stevens  
**Subject:** Kildeer Spillway (Proposed Outfall 009) Eldorado Chemical NPDES AR0000752

Currently Lake Kildeer is at 18.49 ft. Overnight, the facility received 7 inches of rainfall, Mostly within a four hour window. This caused the levels in Kildeer to raise from 16.5 to 18.5 feet. Based upon instrumentation, the spillway (Proposed Outfall 009) overtopped at 5:01 AM. Samples will be collected based on the parameters outlined for Outfall 001. Currently we have increased our discharges to Outfall 001 and Outfall 010 in accordance with the Emergency Contingency Plan for Significant Rain Events.

As always, if you have any questions or concerns, please feel free to contact me.
