RE: NPDES Permit AR0000752 Discharge Monitoring Report for period ending September 30, 2013.

Enclosed you will find a corrected copy of the Discharge Monitoring Report 010-Monthly-Process Wastewater ending September 30, 2013. The Nitrate Nitrogen as N results were miscalculated at the outside laboratory (American Interplex) which caused an error in the loading results. The monthly average loading result went from a 68.03 lb/day to an 84.73 lb/day. The daily max loading result went from a 113.67 lb/day to a 114.88 lb/day. If you have any questions regarding this report, please contact Larken Pennington at (870) 863-1125.

Sincerely,

A handwritten signature in black ink that reads "Greg Withrow". The signature is written in a cursive, slightly slanted style.
