RE: Best Management Practices (BMP) Annual Report for 2021
NPDES Permit AR0001210 AFIN 02-00013

Dear Mr. Healey:

Please accept this letter as the annual report of BMP activities as required by Part II, Condition No. 9 of the above referenced NPDES Permit consistent with the Department's July 23, 2020, letter to Georgia-Pacific Crossett LLC (GP). As previously communicated to the agency on October 4, 2019, the facility permanently shut down its Kraft pulping operations. As such, the requirements of 40 CFR 430.03 are no longer applicable to this facility. The new operating footprint has been communicated to the agency as part of the NPDES renewal process. At this time, the current permit has been administratively continued and, therefore, the BMP requirement cannot be removed from the permit. Until the renewal permit is issued, GP will continue to provide pertinent updates to the agency as necessary.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. If you have any questions or need additional information, please contact Sarah Ross, our Environmental & Compliance Leader, at (870) 415-6363 or Sarah.Ross@gapac.com.

Sincerely,
