NPDES Permit # **AR0001210**

Dear Mr. Healey:

Attached are the Discharge Monitoring Reports (DMRs) for the Georgia-Pacific Crossett Paper Operations' - NPDES Permit # **AR0001210** - for May 2015. Samples are collected on Tuesday, Wednesday and Thursday each week and analyzed for BOD (Biological Oxygen Demand). The mill was in compliance with all permit limitations as specified by the permit.

One sample did not meet a method quality control check: the sample collected on Tuesday, May 26, 2015, did not yield the minimum DO (dissolved oxygen) depletion of 2.0 mg/L; therefore, a sample collected on Sunday, May 31, was substituted. Also note that two samples were collected for Nitrate Nitrogen as we committed last month.

If you have any questions or need additional information, please feel free to contact Rachel Johnson at (870) 567-8170 or by email at rachel.johnson2@gapac.com.

Sincerely,

A handwritten signature in black ink that reads 'Sarah M. Ross'.
