RE: NPDES Permit Number AR0020087, AFIN 62-00070  
Sanitary Sewer Overflow (SSO) Corrective Action Plan (CAP) Request

Dear Mayor Bryant,

A review of your compliance history has revealed that over the last year your facility has reported 43 SSOs. (See attached report)

The Department requires the development of a Corrective Action Plan (CAP). The CAP should address each of the issues listed above, contain a plan for achieving compliance, a description of the actions to be taken, include a timeline with benchmark dates, and a date your facility will achieve final compliance. The complete CAP shall be submitted to the Department, at the address below, by June 13, 2015.

Failure to achieve compliance with the conditions of your permit may result in enforcement action. Such action will include but may not be limited to the assessment of a voluntary civil penalty.

Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0664 or via e-mail at [pemberton@adeq.state.ar.us](mailto:pemberton@adeq.state.ar.us).

Sincerely,
