**Subject:** Re: AR0020117 City of Mountain View CAO LIS 18-091

Bailey,

Please accept this email as the quarterly report for the City of Mt. View.

CWB Engineers completed the Preliminary Engineering Report for the City of Mt. View in October 2019. The City Council is now in discussion on how to finance the recommended improvements. Once these decisions are made, CWB Engineers will submit the Preliminary Engineering Report to the ADEQ. We originally thought this might be as early as October but instead it is likely to be in February 2020. We do not want to submit the PER until the City Council has committed to an improvements option and a plan on financing it. The planned improvements will include both WWTP and Collection System Improvements.

Thanks for your patience as the City works through how to finance the recommended improvements. Please don't hesitate to contact me if I can answer any questions or address any concerns regarding this update.

Sincerely,

**C. Kyle Breckenridge, P.E.**

Mayor Gardner,

Per the Order and Agreement section of CAO LIS 18-091, the City of Mountain View is to provide quarterly updates detailing the status of compliance with the permitted effluent limitations and Part II, Condition5 of the Permit. DEQ has yet to receive the progress report that was due November 15, 2019. Please submit this report by January 2, 2020.

Thanks,
