RE: NPDES Permit Number: AR0020117, AFIN: 69-00011
Corrective Action Plan Response

Ms. Taylor,

This letter is in reference to the CAP letter dated on July 19, 2017. It is the City of Mountain View's intent to meet all requirements of our NPDES Permit. As previously stated we had some issues at the wastewater treatment plant in which Ms. Susan Poe with Arkansas Rural Water came in and went through the processes with the operator Mr. Jackie Craig, and the plant has improved with some minor adjustments issues which was done on September 29th 2017. The other is the sewer collection system (SSO) the City is going back and reviewing the information that was found that was put together by Mc Clelland Engineers. Several mainlines were checked with the camera system on March 2013 we wanted to see if any problem areas were missed and if anything is found, we can fix them by replacement or doing the pipe bursting process. We also have not had any major rain in several months to see if this has reduced any overflow in the main lines that have already been fixed. The City is also looking into the big lift station on Park Ave. to see if an increase in pump size maybe needed but before we do that the City had Ms. Susan Poe to come back and camera the force main to the lift station and there was some build up in the main line, which has been cleaned and should be flowing at full capacity. They did not find any leaks in the main line this was all done on December 12, 2017. Instead of smoke testing as previously thought the City is going to do more camera work in the areas that were not done before. Also Ms. Susan Poe with ARWA ask me to give you her phone number which is 501-206-8200 she would be glad to help with any questions you may have. If you have any questions, please call.

Sincerely,

Roger Gardner, Mayor City of Mountain View
