Corrective Action Plan Response**

Dear Mayor Gardner,

The Department received and reviewed the Corrective Action Plan (CAP), dated February 8, 2019, for the above referenced facility. The response was deemed adequate with the following comment:

- Please be advised that, Pursuant to Regulation 6.202(A), “Any person who desires to construct, operate or modify any disposal system which will discharge to the waters of the State... shall submit an application for a permit for such activity.” Therefore, before beginning any construction projects, including significant operational or physical alterations, please send a written proposal and a request to the ADEQ’s Office of Water Quality Permit Branch to ascertain whether or not a construction permit will be required.

Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0639 or by e-mail at bailey.taylor@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink that reads "Bailey Taylor".
