Allen Anderson:

Here is the list of information you requested.

1. Rehab seven manholes in 2011.
2. Complete manhole survey and inspection in 2012.
3. Smoke tested entire system in 2012 and repaired most of the problems found from the smoke test, including public and private service lines and cleanouts.
4. Installed 2200 feet of 18 inch gravity sewer line from overflow point to treatment plant and deleted the lift station.

Future plans for the next two years are.

1. Rehab all bad manholes.
2. Use camera to look at suspected bad lines and repair.
3. Smoke test again in July of 2013.

If you have any question just give me a call.

Sincerely,

Joe Thatcher
Wastewater Mgr.
