**Subject:** NCR Request  
**Attachments:** NCR Form.pdf

Hello,

DEQ has reviewed the Discharge Monitoring Report (DMR) 001-A, submitted by City of Mountain View (AR0020117) for the monitoring period ending 04/30/2023, and Ammonia Nitrogen and FCB violations were reported on the DMR. Per the requirements of the permit, anytime violations are reported, a Non-Compliance Report (NCR) must be submitted. I have attached a copy of an NCR. Please fill this out for the violations reported on the DMR and send back to me. You are welcome to email it to me but in the future, it will need to be attached to the DMR via NetDMR. Please send this back to me by **05/31/2023**. If you have any questions, please don't hesitate to contact me.

Thank you,

## KRISTEN GRAHAM
