Subject: Permit Renewal Reminder

Good afternoon,

I'm reaching out one last time with a friendly reminder of the upcoming permit renewal deadline for the City of Mountain View [AR0020117, 69-00011]. We need a complete renewal application no later than **February 1, 2023**. If the Division does not receive the renewal application by this deadline, the only way to grant permit coverage until a new permit is issued, is through a Consent Administrative Order, which will include a civil penalty. Obviously, we all want to avoid that if at all possible. That is why we try and reach out to make you aware of that due date and the importance of making sure the renewal application is received on time.

In this process, if you have any questions about your renewal application, please don't hesitate to reach out to the Permits Branch at 501-682-0623. The permit engineer working on this permit is Zachary Carroll. He can be reached at 501-682-0625 or by email at Zachary.Carroll@adeq.state.ar.us.

We appreciate your attention in this matter,

KRISTEN GRAHAM
