Kristen,

Please accept this email as the quarterly progress report for CAO LIS No. 18-091 - City of Mountain View (AR0020117). The new clarifier is now in operation with the old clarifier out of service for rehabilitation. Rehabilitation work to the old clarifier is almost complete and the equipment should be placed back into service in late September. The oxidation ditch cleaning is progressing. The only major items of work yet to begin are the UV Disinfection System improvements, and the BNR control panel replacement. These should begin in the fourth quarter of 2023.

Should you have any questions or need any additional information please respond to this email or give me a call at the number below.

Sincerely,

C. Kyle Breckenridge, P.E., BCEE
