Bailey,

We are planning to formally update you soon on the progress at Mt. View, and submit the Preliminary Engineering Report that we completed and presented to the City last October.

They are trying to work through how to fund the improvements. In our review of the milestones to date we noticed that we don't have an executed copy of the CAO. We have the executed cover letter that we downloaded from the ADEQ website but the whole CAO isn't up there. **Could you share a PDF of the complete executed CAO with us?** Or do we need to get the hard copy from the City.

Due to funding delays they are not going to complete all corrective actions by Dec. 31, 2020. We should have the contract in place and be in construction but permit compliance by that date is not feasible. We will formally request an extension when we submit the update and PER.

Thanks,

C. Kyle Breckenridge, P.E.
