Subject: Fish Kill Report Not Found Truthful

Alan,

Yesterday I received a call from ODEQ representative stating they received a phone call of fish kill on Sager Creek at 1:01 pm. Immediately I investigated and found oxygen levels numerous locations above 5.0 ppm checking out to several miles west of plant and no visible fish dead. ODEQ and Oklahoma Game and Fish also found no dead fish. ODEQ saw snakes and fish visible in stream and reported findings to their superiors.

I am just letting you know things associated to our discharge stream Sager Creek.

Sincerely,

Thomas A. Myers
