Subject: Siloam Springs Plant Blowers Maintenance Notification

Alan,

This email is a follow up to our phone conversation regarding maintenance on centrifugal blowers. Currently our centrifugal blowers are off line for repair. We are providing aeration to the Biological Nutrient Removal process with our positive displacement blowers. Service crews for centrifugal blowers will be on site Monday April 25 to conduct repair work.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Thomas A. Myers
