ENVIRONMENTAL
QUALITY

AR0020702

SIGNIFICANT CHANGES FROM THE PREVIOUSLY ISSUED PERMIT

The permittee is responsible for carefully reading the permit in detail and becoming familiar with all of the changes therein:

1. The mailing address was removed from the cover page.
2. The outfall coordinates were updated based on the renewal application.
3. The CBOD5 concentration limits were updated due to a change in rounding procedures.
4. The FCB limits for April were revised. See Section 12 of this Fact Sheet for additional information.
5. The requirements to monitor and report for Nitrate + Nitrite Nitrogen and Total Phosphorus have been reduced to once per year. Please see Section 12 of this Fact Sheet for additional information.
6. Part II.8 of the previous permit, the sludge disposal condition, was removed. Sludge disposal is addressed in Part III.B.6 of the permit.
7. The NetDMR coding in WET testing condition was revised in Part II.8 of the permit.
8. The monitoring frequency reduction condition was added in Part II.9 of the permit.
9. Part III.C.5 of the permit now requires that DMRs be submitted electronically via NetDMR.
10. The twenty-four hour report condition was revised in Part III.D.6 of the permit.
11. The discharge of toxic substance condition was revised in in Part III.D.8 of the permit.
