RE: Progress Report #1
NPDES Permit # AR0021717, AFIN 45-00021
City of Flippin, Arkansas

Dear Ms. Harbin:

In accordance with the approved CAP for the above-referenced permit number, this letter is being submitted as "Progress Report #1" on behalf of the City of Flippin. The construction permit for the improvements at the wastewater treatment facility has been obtained and the advertisement for bids for the improvements has been published. The bid opening date is September 21, 2021. Assuming that the bids are within the project budget for the proposed improvements, the contract award will follow shortly after the bid opening and we will work towards the issuance of the "Notice to Proceed".

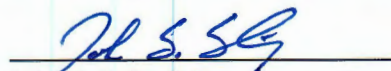

All of the manholes in the collection system have been inspected and CEA is working to finalize the contract drawings and specifications for the rehabilitation of the collection system. As soon as these documents can be completed, they will be submitted to the ADH and funding agencies for review and approval. Once approved, the advertisement for bids for this work will be published.

Please review this information and advise me of any additional information that might be necessary in order to accept it as "Progress Report #1".

Thank you for your cooperation in this matter. If you should have any questions or comments, do not hesitate to call me at (870) 273-4185, or email me at jselig@ce-associates.biz. Please send any written correspondence concerning this matter to our office in Jonesboro at the listed address.

Sincerely,

CIVIL ENGINEERING ASSOCIATES

John S. Selig, P.E.
