Subject: AR0021717 Flippin CAP Response
Date: Wednesday, May 24, 2017 3:50:00 PM
Importance: High

Mr. Wagoner,

The Department has reviewed the CAP dated May 15, 2017 and has the following comments:

- You were contacted by the permit engineer on 5/18/17 regarding the active AR0021717C permit but there has been no response indicating if you are planning to terminate this permit or not.
- If you should decide to change your process and use chemicals to address their ammonia issue, you may need to modify your permit, or at least get written permission from the permits branch prior to the change.

Please submit a response by 05/31/17.

Thank you,

Layne Pemberton
