Date of Non-Compliance	Parameter Exceeded	Quality or Loading	Quality or Concentration	Permit Limits
Feb. 06, 2019	Nitrogen	Yes	Yes	
			Monthly AVG	9
			7 Day AVG	10.5
		Monthly AVG		13

**We feel this problem was due to:**

The amount of flow coming into the plant and we were limited on the time we could run our rotors to keep the plant from running sludge on sand filters. Rotors must not have been running for a sufficient amount of time to meet limit requirements.

**We plan on correcting the problem in this manner:**

Reducing inflow/infiltration. We are still in the process of line inspections. We are trying to fix the problems as we find them. Some problems will require funding to fix and we are still currently in the application process for funding.

**Time estimated that it will take to correct problem:**

February 2021

Sincerely,
