RE: Progress Report #2  
NPDES Permit # AR0021717, AFIN 45-00021  
City of Flippin, Arkansas

Dear Ms. Harbin:

In accordance with the approved CAP for the above-referenced permit number, this letter is being submitted as "Progress Report #2" on behalf of the City of Flippin. The proposed wastewater treatment facility improvements project has been advertised for bids and the bid has been awarded to the low bidder. We are currently waiting on approval of the contract documents from ANRC so that we can schedule a pre-construction meeting for the project and the City of Flippin can issue the "Notice to Proceed".

CEA has received the final survey information for the collection system rehabilitation and expansion portion of work and is working to finalize the contract drawings and specifications for submission to the ADH and funding agencies for review and approval. Once approved, the advertisement for bids for this portion of work will be published.

During the months of September and October of 2021, the facility reported two (2) effluent violations for its ammonia limit. Both of these violations were reported in the month of September.

Please review this information and advise me of any additional information that might be necessary in order to accept it as "Progress Report #2".

Thank you for your cooperation in this matter. If you should have any questions or comments, do not hesitate to call me at (870) 273-4185, or email me at [jselig@ce-associates.biz](mailto:jselig@ce-associates.biz). Please send any written correspondence concerning this matter to our office in Jonesboro at the listed address.

Sincerely,

**CIVIL ENGINEERING ASSOCIATES**

John S. Selig, P.E.  
Member
