Subject: AR0021717 City of Flippin Permit Report Request,

Mr. Wagoner,

While reviewing the permit for the City of Flippin, it was discovered that there is a permit report that's missing. It's the effluent temperature monitoring summary. It request three effluent temperatures from the summer (June, July, and August) and three winter temperatures (December, January, and February) The lab should have these. If you have any questions please call me.

Thank you,
