RE: Permit No. AR0021733 AFIN: 67-00023, 2 year/Progress Report WET Sub-lethal limits.

As per section B. permit compliance schedule of our NPDES permit please find following the required (2) year progress report for WET Sub-lethal limits for P. promelas. In reviewing the past WET tests, we have passed the Sub-lethal part on all.

A concerted effort has been made to stay well under all effluent limitations included in our permit. This has shown to help with the WET in the past. Also keeping the alkalinity of the final effluent over 50mg/l.

If you have any questions please contact me at (870) 642-5231, or by email at [msims@cityofdequeen.com](mailto:msims@cityofdequeen.com)

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Sims", with a horizontal line underneath.

Michael Sims
