

JEFF BROWN  
MAYOR

DONNA J. JONES  
CITY CLERK /TREASURER

**CITY OF DEQUEEN**  
(870) 584-3445

Thomas Harrington,

I am writing my Compliance Report for my total Recoverable Copper limit that will start April 1, 2023. With the help of a metal removal product from Water Tech and some Polymers, we can meet our limit of 12.2 UGL. Arkansas Analytical out of Little Rock is the Lab we use for testing as we cannot test in house. The City of De Queen Wastewater Facility will do whatever it takes to keep our treated effluent waters within this limit to make sure that the environment downstream will thrive.

Sincerely,  
Clint Young  
Wastewater Superintendent

A handwritten signature in red ink, appearing to read "Clint Young", is written over a horizontal line.
