

JEFF BROWN  
MAYOR

DONNA J. JONES  
CITY CLERK /TREASURER

**CITY OF DEQUEEN**  
**(870) 584-3445**

---

Thomas Harrington,

I am writing my final Compliance Report for my total Recoverable Copper limit that is due on May 1, 2023. We are currently meeting our limit of 12.2 UGL. Arkansas Analytical out of Little Rock is the Lab we use for testing as we cannot test in house. The City of De Queen Wastewater Facility will continue to do whatever it takes to keep our treated effluent waters within this limit to make sure that the environment downstream will thrive.

Sincerely,  
Clint Young  
Wastewater Superintendent

A handwritten signature in black ink, appearing to read "Clint Young", is written over the typed name.
