Mr. Dunaway,

The above referenced permit requires a Non-Compliance Report (NCR) be submitted for any violation of permit parameters. An NCR was not submitted for the violations found in you Discharge Monitoring Report (DMR) for May 2018.

For an NCR to be considered adequate it must contain all of the following:

- (1) a description of the violations,
- (2) the reason for the violations,
- (3) the duration of the violations,
- (4) the corrective action being taken to eliminate the violations,
- (5) the compliance date or expected compliance date,
- (6) an original signature of the cognizant official.

I have attached a blank NCR for your convenience. Your report should reach the Department no later than **June 25, 2018.**

Additionally, any exceedance of permit parameters is a violation of Part 1, Section A of your Permit.

Thanks,

Bailey Taylor
