Honorable Billy Ray Jones
City of Nashville
426 North Main Street
Nashville, AR 71852

**RE: NPDES Permit Number AR0021776, AFIN: 31-00036
Non-Compliance Report and Retest Request**

Dear Mayor Jones,

The City of Nashville reported a Whole Effluent Toxicity (WET) failure on the TX1-R Discharge Monitoring Report (DMR) for April – June 2018 in violation of Part I, Section A of the above referenced Permit.

Part II, Condition 10.1.c of your Permit requires the sampling frequency for the affected species to increase to monthly until such time compliance with the No Observed Effect Concentration effluent limitation is demonstrated for a period of three consecutive months. Please submit WET retests until you have demonstrated compliance for three consecutive months.

Additionally, your Permit requires a Non-Compliance Report (NCR) be submitted for any violation of permit parameters. For a NCR to be considered adequate, it must contain all of the following:

- (1) a description of the violations,
- (2) the reason for the violations,
- (3) the duration of the violations,
- (4) the corrective action being taken to eliminate the violations,
- (5) the compliance date or expected compliance date,
- (6) an original signature of the cognizant official.

Please submit an adequate NCR addressing the effluent violation. Your response should reach the Department by **October 17, 2018**.

As a reminder, lab reports should be uploaded as an attachment in NetDMR when submitting WET DMRs.

Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0639 or you may e-mail me at bailey.taylor@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink that reads "Bailey Taylor".
