Subject: Overdue Pretreatment Report

Good afternoon,

I am reaching out regarding an overdue 2022 Pretreatment Annual Report for the City of Nashville (AR0021776, 31-00036).

It is critical that we get this missing report as soon as possible. The EPA considers missing reports such as these an act of Significant Non-Compliance and, if left unresolved, could result in formal enforcement action by DEQ, which may come with a civil penalty.

Please have this submitted to us by 03/24/2023. Submit the report to Jamie Belcourt at jamie.belcourt@adeq.state.ar.us.

Thank you for your attention in this matter.
