

ADEQ

ARKANSAS
Department of Environmental Quality

December 9, 2011

Larry Dunnaway, Public Works Director
City of Nashville
426 N. Main Street
Nashville, AR 71852

RE: NPDES Permit No.: AR0021776, AFIN: 31-00036, State Permit No. 4794-WG-WR,
AFIN: 31-00274, Response to Inspection

Dear Mr. Dunnaway:

The Department has reviewed the response pertaining to the November 9 and 10, 2011 inspection of the City of Nashville's wastewater treatment facility, land application permit, and Pretreatment by District Field Inspector Shan Lynch. After reviewing the response, the Department has the following comments:

- The inspection report indicated the second Progress Report addressing Ammonia Nitrogen and Selenium was delinquent. However, the report was received at the ADEQ on 05/23/11.
- Please submit to the ADEQ all required reports prior to or upon the date in which they are due.
- Please submit the 2010 Annual Report the ADEQ as soon as it is available, but no later than January 1, 2012. A similar violation was documented during an inspection conducted on November 3 and 4, 2009.

The Department will keep the inspection and response on file. If future violations occur that require enforcement action, the Department will consider the inspection and response as required by the Pollution Control and Ecology Commission Regulation No. 7, Civil Penalties. This regulation requires the Department to consider the past history of your facility and how expeditiously the violations were addressed in determining any civil penalty that may be necessary for any future violations.

If we need further information concerning this matter, we will contact you. Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0635 or you may e-mail me at anderson@adeq.state.ar.us.

Sincerely,

Alan Anderson
Enforcement Analyst
Water Division Enforcement Branch
