I have attached the class certifications for Ricky Martin and Charlie Hammock for the Wastewater Lab they attended in Springdale, Arkansas.

We have installed two additional quick-connections on the lift stations and intend to have more done by the end of the year. The two installed are at University Heights and on Bowser Road.

We are mailing the checks today.

The engineer will be submitting an updated report.

The automated control valve has been installed and is operational.

We had a meeting today with the engineering company to work out some of these issues.

Thank you,

Andrea Jo Chambers
