Bless you. Don't worry, you will hear from me, maybe every month. Last month Matt B helped me. He has emailed me some step by step instructions. Part of MY problem, though, is that I want to UNDERSTAND what the questions mean and what I'm answering. So I need a CLASS to EXPLAIN this stuff. I'm not sure anyone has that capability or the time to deal with 100 people who need classes. Anyway, I'm still working on it. Thanks again Danielle.

Sincerely,

Paige Chase

Thank you Danielle. I am working on this. Number 1 is supposed to be done now. I'll work on number 2 today. Sorry, I still don't understand enough about all this to know if I'm finished or not. I am working with Matt B at McClelland and he

is trying to help me also. My crews don't have a computer and I am trying to make Charlie Hammock come in and sit with me while I am submitting, correcting, etc... so he can learn, but it's not always possible. We don't have the workforce to keep all the wheels turning if he is pulled away. We have hired 41 employees since I started and most of those were in Public Works. We have also lost 48 employees. My only point is that it's a constant job to train and retrain and we have a limited workforce to choose from. Until this situation gets settled down, which I do expect to happen, I am in this alone. Still trying to learn.

I also understand, Monticello isn't alone in this situation. Most municipalities have similar problems with workforce etc.. I am not feeling sorry for us and don't want you to think that. It is however, a problem. Thanks for letting me "vent". ☺  
Sincerely,

Paige Chase

**Importance:** High

Mayor Chase,

I have a few things I need to address:

1. The February 2020 DMRs need to be corrected if you have gotten the results back from the lab. (I assume you have since you reported the March DMRs).
2. For the March 2020 TX1-Q DMR, you reported NODI H on every parameter, but if I am reading the lab report right, C. Dubia passed, just P. Promelas was invalid. So this DMR needs to be corrected to reflect that.

If you need help doing any of this, please call me at 479-216-4190. Please have these corrected by May 8, 2020.

Thanks,

Mayor Chase,

On the February 2020 DMRs for the above permits, you entered a NODI K due to delayed results. Have you gotten these results from the lab yet? If so, you will need to go into NetDMR and correct the February DMRs with the results.

If you need assistance, please contact me.

Thanks,
