Kayla,

I have submitted the monthly grab sample results and FYI - we are currently working to set up the hypo tank and storage building to start disinfection practices due to the recently high fecal numbers. Please call with any questions that you may have.

Thanks,

Blake Marotti

**Subject:** Progress Report and Sample Results Due - City of Wynne AR0021903

Dear Mr. Marotti,

I am writing as a reminder that, per the requirements of CAO LIS 24-162, a progress report detailing the clean-up activities at the facility and the status of the construction of the new wastewater treatment plant is due to DEQ by January 10, 2025.

Additionally, in accordance with the CAO, please submit monthly emergency effluent monitoring reports – the lagoon sample results. The most recent report on file is from October 2024. You may submit the

results by the 25<sup>th</sup> of the month following the monitoring period end date, just like a DMR, while reporting NODI T on the DMR itself.

Reports should be submitted to [ee.water.enforcement.report@arkansas.gov](mailto:ee.water.enforcement.report@arkansas.gov). Please let me know if you have any questions.

Thank you,

**Kayla Grabinski** | Compliance Analyst
