Arkansas Department of Environmental Quality NPDES Enforcement Section 5301 Northshore Drive

May 2013 Non-Compliance Letter:

We continue to struggle with Ammonia Nitrogen and Total Suspended Solids, although our numbers are closer to our parameter limits. Again we think the excessive amount of rainfall was a contributing factor. We also had a chlorinator malfunction on May 21 causing high numbers for 7 day average. We hope to be back in compliance next month with more normal rainfall totals.
