Tim,

It is okay to submit the permit applications once the WWTF upgrade plans are complete. I did not realize the plans still had 6-8 more months until completion. The City is not subject to fines if the permit modification application cannot be submitted by the May 27, 2020 date. I came up with that date absentmindedly without considering other factors. I was just advising the City that the permits were needed and giving a proposed date. I am aware that you are all working diligently to meet the requirements. Just be advised of the needed permits.

If you have any further questions, feel free to contact me.

Thanks,

Danielle:

Please see attached letter with questions that we need clarifications to relative to the dates referenced in your April 27, 2020 correspondence to Mayor McClendon.

Thanks in advance for your consideration.

Sincerely,

Tim Verner, P.E.
Senior Vice President

Danielle:

On behalf of the City of West Memphis and West Memphis Utilities, and in accordance with the delivery requirements set forth in the CAO, please find attached an Amended Corrective Action Plan, a WWTP Recommended Hydraulic Improvement Report, and justification by a professional engineer for the selected design storm event.

I trust that you and your staff will find everything in order, but please do not hesitate to contact me at this office if you have any questions concerning the attached.

Thank you in advance and we look forward to your review and approval.

Sincerely,

Tim Verner, P.E.
Senior Vice President
