**Key#:** 664      **Date:** 7/30/2014 10:05      **Facility:** City of Bentonville

**From:** Jacqueline Trotta      **NPDES #:** AR0022403

**To:** David M. Roberts

I called in regard to a missing WET Testing DMR (TX1-Q) for monitoring period ending 3/31/2014. Mr. Roberts explained that they thought they were still under a reduction to twice a year for WET testing. I researched and discovered that they were under reduced testing for their last permit cycle that expired on February 28, 2014. I explained that they would have to submit another reduced frequency request if they wanted WET testing reduced to twice a year. Mr. Roberts understood and he is going to submit the missing DMR through NETDMR and submit a report of Non-Compliance with it today.
