Mr. Lawrence:

This letter is intended to serve as the January 2021 compliance report for CAO LIS 16-013 for the City of Blytheville's South and West Wastewater Treatment Plants.

At the present time, Nabholz has been contracted to construct the facility improvements as submitted to DEQ. Construction of the new treatment facility combining the South and West Treatment Plants is underway and will progress throughout 2021 and into early 2022. During the interim the plant operators are continuing to make every effort to remain in compliance with effluent limits.
