Thanks Jerry. I look forward to the detailed CAO progress report you said you'd be sending in January.

Ms. Trotta,

I have received the additional information you needed on the work that was completed in 2014.

Pump Station Renovations ~ \$210,000.00
Treatment Facilities Updates/Renovations ~ \$100,000.00
Sewer Line I&I repair ~ 50,000.00

I haven't heard back from my contact at the Corps of Engineers. Since they awarded the contract, the work should be underway. I will keep checking and give you an update.

If there is any additional info needed, please let me know.

Thank you,

Jerry Caldwell, P.E.

Mr. Caldwell,

Per our phone conversation just now, I understand that the City will need some time to develop a full progress report for each of the three facilities (this request is being routed for approval). In the meantime, please submit an update on the work stated in the January 31, 2014 progress report for the work that was stated would be **completed/started in 2014**. As discussed, I need the update on just the work that was to be done or would be done in 2014 **before** December 30, 2014. I have attached the progress report for your reference.

Thanks,

Ms. Trotta.

The City of Blytheville was contacted earlier this week about the CAO Progress Report. From our understanding, the Progress Report and Yearly Report have been combined and are due at the end of January. We can work to get the report to you sooner than the end of January. For the year or 2014, the City has spent \$387,000.00 on the CAO items and the combined money spent all CAO items from 2009 – 2014 is \$1,521,000.00. The dollar amounts mentioned will be elaborated on in the progress report.

Thank you,

Jerry Caldwell, PE
