Mr. Wingfield,

Per our phone conversation just now, I understand that you guys were needing 60 days from the date of ADEQ's approval letter to submit the Corrective Action Plans (CAPs). Please use this email to serve as a revision to the previously sent letters. The new due dates for the CAPs for all three Blytheville facilities will be **June 24, 2017**.

Feel free to contact me if you have any questions.

Thanks,
