Attachments: West Plant AR0022560 Notice of Termination.PDF

Hi Tiana,

We have recently submitted Notice of Termination the referenced permit and I attached for your records. The West Plant AR0022560 is no longer in service and has been converted to a pump station transferring water to the newly constructed SBR facility. Please let me know if you have any questions.

Thanks,
Brad

Subject: City of Blytheville - West Plant

Good morning.

Per our phone conversation, this is what was due for the City of Blytheville - West Plant's permit (AR0022560):

Pursuant to 40 C.F.R. § 122.44(j)(2)(ii), the permittee shall submit either of the following items within sixty (60) days of the effective date of this permit:

- A. A WRITTEN CERTIFICATION that a technical evaluation has demonstrated that the existing technically based local limits (TBLLs) are based on current state water quality standards and are adequate to prevent pass through of pollutants, inhibition of or interference with the treatment facility, worker health and safety problems, and sludge contamination.
- B. A WRITTEN NOTIFICATION that a technical evaluation revising the current TBLLs will be submitted within twelve (12) months of the effective date of this permit.

Thank you for your assistance,

RE: City of Blytheville – Permit AR0022560 Termination

Mr. York,

The City of Blytheville's West Treatment Plant has been tied in to the newly constructed SBR Facility at the South Plant. Expansion activities at the South Plant are covered under permits AR0022578 and AR0022587C. The new SBR facility has been designed to accommodate the increased flows from the West Plant. The existing ponds at the West Plant will be retained as equalization basins for wastewater prior to being pumped via force main to the South Plant. There is no discharge from the West Plant's permitted outfall. The City of Blytheville requests to update the approved Pretreatment Program to reflect the change in the facility status. The City of Blytheville also requests that Permit AR0022560 be terminated.

If you have any questions or need additional information, please don't hesitate to reach out to either Gary Carr, Wastewater Superintendent, at (870)763-4961 or Brad Wingfield with PMI at (501)221-7122.

Respectfully,

Melissa R. Logan
Mayor, City of Blytheville
