As you know the old Consent administrative Order (CAO LIS 08-094) addressed Sanitary Sewer Overflows (SSOs) the city was having. We are pleased to inform you that the number of Sanitary Sewer Overflows has dramatically decreased in the past few years. The Collection system has seen numerous projects performed from High Priority I&I Areas to Lift Station Rehabs as well as Portable Generators, and Alarm System.

These are for the Months January to May 2015 for each permitted facility.

South Treatment Facility, AR-0022578 (3 SSOs)

West Treatment Facility, AR-0022560 (3 SSOs)

North Treatment Facility, AR-0022586 (0 SSOs)

As a whole, we feel as of this time we are within compliance with Sanitary Sewer Overflows. We plan on continuing work throughout the Collection System to further prevent future occurrences. If you have any further questions, please contact Thomas Jones of Blytheville Wastewater at 870-780-5886.
