Jacqueline Trotta  
Enforcement Analyst  
Water Division  
Arkansas Department of Environmental Quality  
5301 Northshore Drive  
North Little Rock, AR 72118

We would like to request the ability to receive fifty percent (50%) off the full penalty of \$3,200 for NPDES Permit Number AR002586. Concerning NPDES Permit Number AR0022578, We are requesting a reduction of the full penalty. Regarding the 7 violations for Ammonia Nitrogen were caused either by High Flow events or Blower maintenance down time. The 1 violation for Total Recoverable Copper was due to a sampling error.

Concerning NPDES Permit Number AR0022560, We are requesting a reduction of the full penalty. Regarding the 34 violations for Ammonia Nitrogen, we believe the problem has been resolved after a collection system survey was proformed by the City's Pretreatment Coordinator. After a sit down visit with 1 Industry, the West Treatment Facility came back within compliance a week later in August.

The clean sampling procedure has been put into place for the Mercury sampling and will be monitored with strict supervision to provide accuracy and compliance.

James W. Sanders  
Mayor
