RE: NPDES Permit No. AR 0039233, AFIN: 73-00056
Corrective Action Plan - Update
Pangburn Sewer System
White County, Arkansas

Dear Ms. Brown:

Please accept this letter as our quarterly update for the Corrective Action Plan. Since the last update the system has implemented the new rate structure and has now realized a positive cash flow. I am continuing to accumulate system information and am in contact with system manager Shawn Hughes regarding the treatment plant. The daily operation of the treatment plant has been delegated to Mr. Steve Upton. Mr. Upton is a seasoned sewer operator and has made some adjustments in the operational conditions of the plant. There have been no additional permit violations since this time. We will continue to monitor the plant, but if the plant continues functioning normally and no additional violations are documented within the next 6 months, my recommendation will be for no additional improvements to the treatment plant.

If I can provide any information prior to our next update, please don't hesitate to call my office.

Sincerely,

A handwritten signature in black ink that reads 'Adam Whitlow'.

Adam Whitlow, P.E., P.S.

cc Honorable Mike Marsh, Mayor-City of Pangburn
Tommy Ramsey, Water & Sewer Commission Chairman
Shawn Hughes, System Manager
