Alan,  
The bypass of the east lagoon at the PLWC WWTP which started about noon on Wednesday February 28, 2018 ended today at approximately 8:15 P.M. The analytical results of the samples taken during the bypass will be kept on file at the PLWC WWTP. Please let me know if you require the analytical results or need additional information.  
Thank you, and have a great weekend.

Good afternoon Alan,  
With the additional rain received during the past 24 hours, the PLWC WWTP is bypassing treatment via the east lagoon. The operators noted the date and time of the bypass at noon today. The operators will take grab samples during each day of the bypass, and the laboratory staff will analyze the samples according to the permit requirements. I will inform you when the bypass has ceased.

Please let me know if you have questions or need additional information. Thank you.
