North Little Rock, Arkansas 72118-5317

RE: Progress Report #2  
NPDES Permit # AR0033979, AFIN 11-00061  
City of Corning, Arkansas

Dear Mr. Gray:

In accordance with the approved CAP for the above-referenced permit number, this letter is being submitted as "Progress Report #2" on behalf of the City of Corning. There have not been any discharges from the facility during the last quarter of the year.

As previously mentioned, the City contracted with CEA to prepare a funding application to make certain improvements to the wastewater system. Part of said improvements would include the installation of a post aeration system at the wastewater treatment facility. The funding application will be completed and fully submitted for review by the funding agencies in January 2019. As soon as funding can be secured, the necessary plans and specifications for the proposed improvements will be developed and submitted to ADEQ for review and approval.

Please review this information and advise me of any additional information that might be necessary in order to accept it as "Progress Report #2".

Thank you for your cooperation in this matter. If you should have any questions or comments, do not hesitate to call me at (870) 972-5316, or on my cell phone at (870) 273-4185. Please send any written correspondence concerning this matter to our office in Jonesboro at the listed address.

Sincerely,

**CIVIL ENGINEERING ASSOCIATES**

John S. Selig, P.E.
