

# ADEQ

ARKANSAS  
Department of Environmental Quality

March 15, 2018

Honorable Johnny Brigham, Mayor  
City of Dumas  
155 E. Waterman  
Dumas, AR 71639

RE: NPDES Permit Number: AR0033987, AFIN: 21-00045  
Corrective Action Plan Response

Dear Mayor Brigham:

The Department received and reviewed the Corrective Action Plan (CAP) dated March 12, 2018 for the above referenced facility. The CAP states that compliance with effluent limits will be achieved by December 31, 2018. The response and timeline was deemed to be not adequate with the following comment(s):

- The Department is requesting a more detailed list of work to be done to the treatment system to bring it into compliance with the Permit
- The Department is requesting a more comprehensive time line of the required work to be done to bring the waste water treatment plant into compliance with the Permit.

Please submit the Revised CAP to the Department no later than April 6, 2018. The Revised CAP can be mailed to the Department or can be emailed to [gavin.gray@adeq.state.ar.us](mailto:gavin.gray@adeq.state.ar.us).

Please be advised that, Pursuant to Regulation 6.202(A), "Any person who desires to construct, operate or modify any disposal system which will discharge to the waters of the State... shall submit an application for a permit for such activity." Therefore, before beginning any construction projects, including significant operational or physical alterations, please send a written proposal and a request to the ADEQ's Water Division Permit Branch to ascertain whether or not a construction permit will be required.

Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0667 or by e-mail at [gavin.gray@adeq.state.ar.us](mailto:gavin.gray@adeq.state.ar.us).

Sincerely,

Gavin Gray  
Enforcement Analyst  
Water Division Enforcement Branch
