RE: NPDES Permit Number AR0034002, AFIN 63-00065
Corrective Action Plan and Permit Renewal

Dear Mr. Grimmnett,

During a recent file review, it was determined that while ADEQ confirmed receipt of the revised CAP, a formal reply approving the submitted CAP was not sent. I apologize for this oversight. Due to the length of time, would you please send a progress report on corrective actions the city of Bryant has taken since the submittal of the CAP on August 6, 2018. A formal response will be provided upon receipt and review of the status report.

Additionally, a letter of notification dated June 12, 2019, has been sent by our Permitting branch notifying the facility that the submitted permit renewal application was incomplete. A list of the requirements for completion is part of the letter. A needed correction not included in that letter is that the mayor is the responsible official for this permit. The submitted application names you as the responsible official. You may be named a cognizant official at the discretion of the mayor.

Your assistance with the above matters is most appreciated. Should you have additional questions or desire further assistance please contact me directly.

Sincerely,

A handwritten signature in black ink that reads 'Myrl V Lawrence Jr.' The signature is written in a cursive style.
