Kevin,

A response was received late last month. It looks like it was routed to Enforcement and then over to Permits for review. Shane is working on preparing a response. The proposal looks fine to me. We will just need to stress in the response letter that the level in the sludge lagoon must be lowered by routing the wastewater through the treatment process. Any bypass is strictly prohibited. The following is a link to Bryant's response letter on the website. Thanks!

Kim,

Do you know if we have received anything pertaining to City of Bryant decommissioning the outfall structure?

Sincerely,

**Kevin Suel**

**Kevin;**

**Great job. Did Kim review it? If no please get help from her then send to legal (Gerald) for review before we send this letter out.**

**Thanks**

**Mo**
