**Subject:** Malvern ECOLI Testing due to overflows

On 1/12 we took samples from Site 1 (8:12 AM) and Site 2 (8:10 AM). Those samples were incubated at 8:25 AM on 1/12 @ 35C.

On 1/13 samples from 1/12 were removed from incubator at 8:25 am. Site 1 and 2 results were >2419.6.

We then sampled Site 3 (8:35 AM) and Site 4 (8:42 AM) on 1/13. These samples were incubated at 8:55 AM ON 1/13 @ 35C.

On 1/14 samples form 1/13 were removed from incubator at 8:55 AM. Site 3 result was 727, Site 4 result was 686.7.

100 mls of sample were used for all 4 test sites.
